Portfolio: golden-tcd.github.io/Golden-Portfolio

SUMMARY

Computer Science student at the Nigerian Army University, Biu, focused on frontend development. Builds clean, responsive web applications, designs graphics, and produces beats. Driven by curiosity about how things work and a habit of turning ideas into finished products.

SKILLS

Languages: Python, JavaScript, HTML5, CSS3, C++ (learning)
Tools: VS Code, Spck Editor, Git & GitHub
Design: Adobe Photoshop, CorelDRAW, Canva
Music production: BandLab

PROJECTS

MiEx Expenses Tracker
Completed

Web app for logging expenses by name, amount, category and date. Shows spending by category and monthly trends, warns when a set monthly budget is close or exceeded, and supports search, editing and light/dark mode.

Facial Recognition Access Control System
In development

System that verifies faces to control access as an alternative to keys or cards.

Commercial Website
Completed

Responsive business website, from page structure to front-end build.

Home Workout App
In development

App that guides workouts at home without gym equipment.

Personal Portfolio Website
Live — golden-tcd.github.io/Golden-Portfolio

Designed and built with HTML, CSS and JavaScript; hosted on GitHub Pages.
